

ITLS Information Sheet

Magnetic Particle Examination of machined component.

ITLS Quality Program and Personnel Qualification and Certification Program:

The ITLS Mission - To be the locally recognized Independent testing laboratory leader through excellence in people and services for the benefit of our customers, our company and ourselves.

Quality Program and Personnel Qualification / Certification Program

As our customer requirements vary, a quality minded testing laboratory must maintain a balanced quality program to provide exacting technical services.

The ITLS Quality Program and Personnel Qualification and Certification Program is designed to implement a number of specific industry Codes and Standards,

Personnel Qualification & Certification

At ITLS, we implement a number of NDE & QC personnel competency Codes and Standards in our various written practices, including:
